DETAILED ACTION

After carefully review the previous restriction, it was found that the elected group contains two inventions, see below, and therefore a new restriction is required.

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 22-36, drawn to a "Method of making a paperboard," classified in class 162, subclass 158.
 - II. Claims 37-40, drawn to a "method of making a cup," classified in class 493, subclass 52.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the inventions have different modes of operation, function and effect. This is obvious since the claims of group I teach the method of making the paperboard and Group II teach a method of shaping it, i.e., the paperboard.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1731

4. A telephone call was made to Mark S. Graham on January 7, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
